

BOSS CABLE TROLLEYS

EST. 2023.

The COMMS FOREMAN

Heavy duty comms cable specialist for large scale data cable installations.

The Comms Foreman BOSS CABLE TROLLEY is engineered to take the hassle out of big comms cable installations.

Load rated to 450 kg, the trolley can hold and flawlessly deploy up to 12 × 500 m drums of data cable.

Quick, easy and safe to load, the trolley is built to handle building site knocks, has outstanding manoeuvrability and is compact enough to fit through a standard commercial doorway!

BEST FOR

- ☑ Large scale data cable installations
- ☑ Deploying 12 × 304 m or 500 m drums of data cable
- ☑ Deploying 12 to 15 drums of security or instrumentation cable

UNIQUE TIME-SAVING AND SAFETY FEATURES

- » Easy to transport and nimble on site — fits in the back of a ute
- » Cable drum crossarms and shaft lock pins can be conveniently and securely stored onboard the trolley when not in use
- » Cable drums can be pre-loaded onto the crossarms and easily dropped into the fixed pole locators, without needing to slide on saddles or use any locking pins
- » Overall width is just under 900 mm to ensure it can pass through the doorways in standard commercial premises

Fixed drop-in crossarm pole locators

Transport in the back of a ute

Lockable storage for poles and shaft lock pins
